DETAILED ACTION

Response to Amendment

1. The Preliminary Amendment filed January 3, 2002 has been entered as Paper No. 2. Claims 1-3 have been canceled. Claims 4-51 have been added. Claims 4-51 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 4-46, Group I, are drawn to method of making an SOI wafer, classified in class 438, subclass 478+.
 - II. Claims 47-51, Group II, are drawn to semiconductor device, classified in class 257, subclass 618.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions Group I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the SOI wafer can be made by bonding a single crystal layer on an insulating covered single crystal handle layer to form an SOI wafer.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2814

5. A telephone call was made to Mr. Thomas Maloney to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

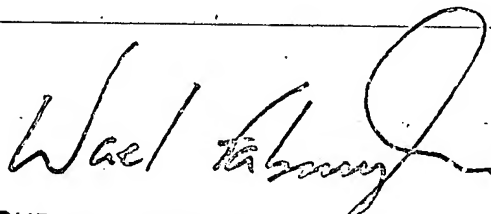

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anh D. Mai whose telephone number is (703) 305-0575. The examiner can normally be reached on 8:30AM-5:00PM.
